

# Unit 7 Review

## Write Equivalent Fractions

Remember you can find equivalent fractions by picturing the shapes we worked with or by multiplying or dividing the numerator and denominator by the same number.

**$4/8$  is equivalent to:**

$2/4$

$1/2$

SRB 47-48

Find equivalent fractions.

# Comparing and Ordering Fractions

1. Take a look at your numerators and denominators.
2. If the denominators are the same, then put the fractions in order by the numerator.
3. If the numerators are the same, then put the fractions in order by the denominator.
4. Compare the fractions to  $\frac{1}{2}$ .
5. Use Equivalent Fractions

$<, >, =$

$\frac{2}{3}$        $\frac{4}{3}$

$\frac{6}{8}$        $\frac{6}{9}$

$\frac{2}{3}$        $\frac{5}{8}$

Order from Smallest to Largest

$\frac{1}{3}$     $\frac{1}{2}$     $\frac{3}{3}$     $\frac{2}{5}$

SRB 51-52

# Add and Subtract Fractions

\*If the denominators are the same, then add or subtract the numerators.

$$1/3 + 1/3 = 2/3$$

$$4/5 - 1/5 = 3/5$$

SRB 53

\*If the denominators are different then think of your pattern blocks.

$$1/2 + 1/3 = 5/6$$

\*Or use equivalent fractions.

# Review Concepts

- Coordinate Grids
- Multiplication
- Division

## Math Boxes in Student Journal

**\*The following will be good for studying for the test.**

Journal Page Number	Problem #
191	3, 4
193	3
197	4
199	3, 5
200	1, 2, 3
202	3, 5
204	3
210	2, 5
217	2, 3, 5
217F	2, 3 a.
